Dear Eli.

I have gone through all letters written by you and Ganga. From the letters I can know the place in the heart from which it is written. It gives to great pleasure to know the progress made by Ganga in helping people in their pursuit of happiness. This is due to your efforts only.

A letter was received from Hanuman, who mentioned about Satganga you all had there:

Papaji is not feeling well as he has trouble with his legs and he is seeking advice of doctors and take some medicine. Patrick will tell you more personally.
With kind regards.

Yours sincerely
Surgendra.
